SOFT SKILLS

- Team Work
- Organizational Skills
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

AI & Machine Learning :

- LLMs (GPT, Gemini), Prompt Engineering, NLP, Recommendation Systems, Retrieval-Augmented Generation (RAG), Scikit-learn, TensorFlow, PyTorch, XGBoost, Ethical & Responsible AI

AI Prototyping & Tools :

- Streamlit, Gradio, Chatbot Development, ChromaDB, Zapier, Make, Notion AI

Programming & APIs :

- Python, JavaScript, FastAPI, REST API Integration

Data Science & BI :

- Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI, Tableau

PROFILE

Motivated IT undergraduate specializing in Data Science and AI, with strong skills in Python and SQL. Focused on using data to understand real-world problems and create practical solutions. Experienced in developing web applications that help present and deliver DS/AI projects in a clear and user-friendly way.

PROJECTS

Energy Demand Forecasting (Time-Series Analysis) (November 2025)

Forecasted hourly electricity demand using ARIMA, SARIMA, Prophet, and DeepAR models. Captured trends and seasonality for improved accuracy and operational planning. Compared model performance and generated visual insights for energy optimization.

Technologies Used: Python, Pandas, Statsmodels, Prophet, GluonTS, Matplotlib

[GitHub Link](#)

Agentic AI Risk Assessment System (October 2025)

Built a multi-agent AI system that evaluates technical, ethical, and regulatory risks across any AI use case. Integrated GDPR-aligned checks and real-time risk classification. Developed an interactive Streamlit UI with vector retrieval and local LLM reasoning. Promotes safer and more responsible AI adoption. Helps organizations identify risks early and improve compliance and user trust.

Technologies Used: Python, CrewAI, Google Gemini, LM Studio, ChromaDB, Streamlit

[GitHub Link](#)

Customer Churn Prediction (September 2025)

Built an end-to-end churn prediction system using XGBoost. Developed an interactive Streamlit dashboard for single and batch predictions. Performed data preprocessing, model training, and fairness evaluation. Ensured reproducibility and business-ready insights through clean pipeline design.

Technologies Used: Python, XGBoost, Streamlit, Scikit-learn, Pandas

[GitHub Link](#)

Cloud & DevOps :

- AWS Cloud , Microsoft Azure , CI/CD fundamentals, Git, GitHub, Postman

Databases :

- MySQL, MongoDB (SQL/NoSQL)

Methodologies :

- Agile & Scrum, Cross-functional collaboration, Prototyping workflows

LANGUAGES

- English
- Sinhala (Native)

EXTRA CURRICULARS

SLIIT IEEE Student Branch
Member Present

WPC Cricket Club
Web Developer (Freelancing)
2024 - Present

Electric Vehicle Data Preprocessing (August 2025)

Cleaned and prepared EV dataset with technical specs, performance metrics, and usage details.
Handled missing values, transformed categorical and numerical features, and prepared data for regression modeling.

Technologies Used: Python, Pandas, NumPy, Scikit-learn

GitHub Link

Online Learning Management System - IgniteLearn (May 2025)

A web platform for managing online courses, assignments, and user progress.
Developed full-stack features including user authentication and course upload.
Designed a responsive frontend and connected it to a secure backend API.

Technologies Used: MERN Stack, REACT JS, POSTMAN API

CERTIFICATIONS

Data Integration, Data Storage, & Data Migration (December 2025)

Data Privacy, Security, Governance, Risk and Compliance (December 2025)

Enterprise Data Architecture and Operations (December 2025)

AWS Training and Certifications

- AWS SimuLearn: Core Security Concepts October 2025
- AWS SimuLearn: Databases in Practice September 2025
- AWS SimuLearn: Computing Solutions August 2025
- AWS SimuLearn: Connecting VPCs August 2025
- AWS SimuLearn: Networking Concepts August 2025

Azure Certifications

- Describe Azure Identity, Access and Security October 2025
- Explore Relational Database Services in Azure October 2025
- Introduction to Azure Virtual Machines August 2025
- Configure Virtual Networks August 2025

Road to Rush Coder 3.0 Hackathon, University of Ruhuna Participation January 2025

EDUCATION

BSc(Hons) in IT Specialized in Data Science 2023 - Present

Sri Lanka Institute of Information Technology

CGPA: 3.18 / 4.0
